

World Environment Day National Webinar on Restore Ecosystem for Healthy Environment

5th June, 2021

03:00 PM - 04:30 PM

CHIEF GUEST

Sh. Lalchand Kataria
Hon'ble Minister, Agriculture
Animal Husbandry &
Fisheries
Government of Rajasthan

PATRON

Prof. J. S. Sandhu
Hon'ble Vice-Chancellor
SKNAU, Jobner

KEYNOTE SPEAKER

Dr. J.C Dagar
Ex-ADG (NRM)
ICAR, New Delhi

EMINENT SPEAKER

Sh. Mahesh Navhal
Environmentalist & State Amritadevi
Vishnoi Prize Winner, 2015

Time	Programme	Speaker
03:00 PM	Preface of Webinar	Dr. S. K. Dadhich Head, Soil Science ,SKNAU
03:05 PM	Welcome of Guests	Dr. A. K. Gupta, Dean & Faculty Chairman, SKNAU
03:10 PM	Address by Patron	Prof. J. S. Sandhu, Vice Chancellor, SKNAU
03:20 PM	Chief Guest's Remark	Sh. Lalchand Kataria Hon'ble Minister of Agriculture, Animal Husbandry & Fisheries Government of Rajasthan
03:45 PM	Climate change and environment degradation in relation to agriculture	Dr. J. C. Dagar, Ex-ADG (NRM) ICAR, New Delhi
04:15 PM	River revival for ecosystem restoration	Shri. Mahesh Navhal Environmentalist & State Amritadevi Vishnoi Prize Winner, 2015
04:30 PM	Vote of Thanks	Dr. L. R. Yadav, Assoc. Dean, SKNCOA, Jobner

Organized By

**Sri Karan Narendra Agriculture University
Jobner, Jaipur (Rajasthan)**

About the webinar

Human population growth and industrial development have led to increased and unsustainable consumption of natural resources. Ecosystem, the complex of living organisms, their physical environment, and all their interrelationships in a particular unit of space is under threat. Healthy environments support healthy life. From forests to peatlands to coasts, we all depend on healthy ecosystems for our survival. Twenty-first century threats to our environment including invasive species, diseases, pollution, and a warming climate are degrading ecosystem. Anything that attempts to alter the balance of the ecosystem potentially threatens the health and existence of that ecosystem. Climate change is exacerbating many of the environmental issues we currently face. It poses a significant long-term threat that demands our collective action to prevent its root causes and cope with its impacts. Only with healthy ecosystems, we can enhance people's livelihoods, counteract climate change and stop the collapse of biodiversity. The UN General Assembly designated 5th June as World Environment Day for encouraging awareness and action for the protection of the environment and the first WED was celebrated in 1972.

National webinar on "**Restore Ecosystem for Healthy Environment**" on the occasion of the World Environment Day, 5th June, 2021 with the theme "Reimagine . Recreate . Restore" under the UN Decade on Ecosystem Restoration (2021-2030) will be an eye opening event to policy makers, researchers and mankind to restore our ecosystem.

Convener

Dr A.K. Gupta
P.I. NAHEP &
Dean & Faculty Chairman,
SKNAU, Jobner

Organizing Secretary

Dr. S. K. Dadhich
Head
Deptt. of Soil Science and Agril. Chemistry,
SKNAU, Jobner

Co-Organizing Secretaries

Chiranjeev Kumawat
Asstt. Professor
Soil Science

Dr. S. S. Punia
Assoc. Professor
Plant Breeding & Genetics

Dr. S. S. Sharma
Asstt. Professor
Soil Science

Dr. S.L. Sharma
Asstt. Professor
Entomology

Dr. Suresh Kr. Sharma
Asstt. Professor
Computer Science

Dr. S.P. Singh
Assoc. Professor
Horticulture

Coordinators

Poonam Yadav
Ph.D. Scholar, Soil Science

Govind Kumar Yadav
Ph.D. Scholar,
Soil Science

Abhishek Godara
Ph.D. Scholar, Soil Science

Anupriya Sharma
Ph.D. Scholar, Soil Science

Pawan Kumar
Ph.D. Scholar, Soil Science
